- Turn over latch body to match the door opening direction.
 - Make sure the latch bevel is facing the strike lip, and knob is inside the door.

B22

3

Installation

a

Mark the center line (Figure 1)

- Decide the required height of latch, mark the horizontal centerline of the latch body and strike on both the door and the door frame, ensuring that the centerlines of the latch body and strike are aligned at the same height

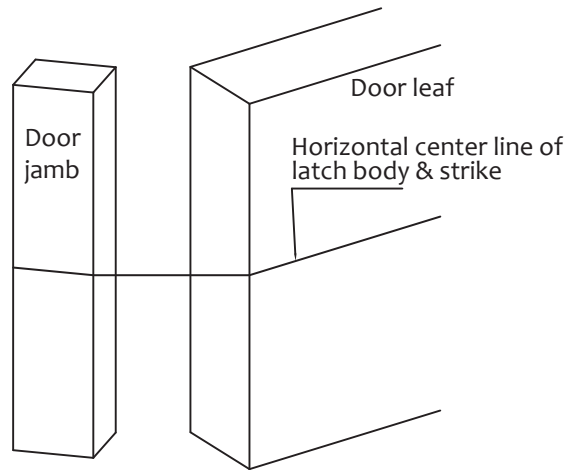

Figure 1

b

Install latch (Figure 2)

- Secure the latch body and strike with 5 screws provided.
